FHFA Statement Regarding Fannie Mae and Freddie Mac Assistance to Tornado Victims

“FHFA is mindful of the many lives impacted by the deadly tornadoes that have destroyed parts of Oklahoma and other states. Our thoughts and prayers are with those dealing with this massive destruction and loss.

“It is important that affected homeowners with loans owned or guaranteed by Fannie Mae and Freddie Mac know that programs are available for borrowers who are experiencing difficulties during these times. Both Fannie Mae and Freddie Mac offer various forms of relief and impacted borrowers should contact their mortgage servicer as soon as possible to explore their options.”
